# INDEX - - VOLUME XXII

## A

- Aconium Haworthii* 6  
*Aloe Krapohlana* 75  
 Aloineae, The karyotype of the 51  
*Astroloba Dodsoniana* 30; *Astroloba Herrei* 31  
*Astroloba* polyploids 52

## B

- BACKEBERG, CURT: Southernmost representatives of the Cactaceae 17; *Stenocacti* 53; *Tephrocacti* 111  
*Bergerocactus Emoryi* 89, 93

## C

- Cactus, Destroying the Christmas 59  
 Cactus, Virus ills of 57  
*Cereus gummosus* 63  
*Cleistocactus Baumannii* 11  
*Coryphantha Andreae* 35; *C. Baumannii* 11  
*Crassula grisea* 118  
*Cryophytum crystallinum* 5; *Cr. nodiflorum* 6  
*Cupressus guadalupensis* 4

## D

- Dudleya anomala* 68, *D. caespitosa* 6, *D. candelabrum* 6, *D. densiflora* 68, *D. edulis* 68, *D. semiteres* 69, *D. stolinifera*, 68, *D. Traskiae*, 68, *D. virens* 68, *D. viscida* 68  
*Dudleya formosa*, a new species from northern Baja California 65  
*Dudleya* species 8

## E

- Echinofossulocactus coptonogonus* 53, *Ech. guerraianus* 53, *Ech. multicostatus* 53, *Ech. ochoterenaus* 53, *Ech. zacatecasensis* 53  
 Epiphyllum blossoms drop? Why do 35  
*Erythea edulis* 3  
*Euphorbia superans* 15, *Euphorbia inermis* 15

## F

- Ferocactus Diguetii* 83, *F. gracilis* 89  
*Fokea angustifolia* 56, *F. capensis* 56, *F. crispa* 52, *F. undulata* 56

## G

- Gasteria* polyploids 52  
 Guerrero is my destination 69  
*Gymnocalcium Andreae* 35

## H

- Harrisia tortuosa* 11  
*Hasseanthus Blochmaniae* subsp.

- Blochmaniae* 76, subsp. *brevifolius* 80, subsp. *insularis* 77, *variegatus* 103  
*Haworthia* polyploids 52  
 HERRE, H.: *Euphorbia superans* 15; Oldest and most famous succulent in Europe 52; *Crassula grisea* 118

## I

- Idria columnaris* 89  
 International Congress (American) 46, (Stockholm) 40  
 International Kongress der Sukkulenten—Forscher (Switzerland) 45

## K

- Kalanchoe Robynsiana* 11  
 KIMNACH, MYRON: Notes on *Mesembryanthemum* 111 (Bulus, Review) 106  
*Kleinia cophalophora* 75

## L

- Lemaireocereus gummosus* 63, *Lemaireoc. Weberi* 71  
 LINDSAY, GEORGE: Land plants collected by the Valero III (Gentry, Review) 10; Guadalupe Island 3; *Pachycereus Orcuttii*—again 87; Palmer's *Mammillaria* 41; The ferns and flowering plants of San Diego Co. (Higgins, Review) 58

## M

- Machaerocereus gummosus* 63, 89  
*Mammillaria balsasensis* 70, *Mam. Brandegeei* 89, *Mam. denudata* 67, *Mam. dioica* var. *insularis* 42, *Mam. guerreronensis* 70, *Mam. Goodrichii* 42, *Mam. Goodridgei* 5, *Mam. lenta* 67, *Mam. neopalmeri* 42  
*Marenopuntia*, northern counterpart of *Pterocactus* 27  
*Marenopuntia marenacae* 27  
 MORAN, REID: *Dudleya formosa*, a new species from northern Baja California 65; Guadalupe Island 3; *Hasseanthus* notes I, 77; II, 101; The cacti of Arizona (Benson, Review) 95

## N

- Nel, Gert Cornelius 21

## O

- Oldest and most famous succulent in Europe 52  
*Opuntia australis* 17  
*Opuntia macrocalyx* 69  
*Opuntia prolifera* 5  
*Othonna intermedia* 75

DESERT PLANT LIFE

## P

- Pachycereus Orcuttii*—again 87; discovered 39  
*Pachycereus pectin-aboriginum* 83, 90  
*Pachycereus Pringlei* 83, 89  
 Palmer's mammillaria 41  
*Peniocereus Greggii* 69  
*Pereskia bleo* at tropical station, Balboa, Canal Zone 33  
*Pilocereus alensis* 71  
*Pinus radiata* 5  
*Pterocactus australis* 17, *Pteroc. Darwinii* 19, *Pteroc. Hickenii* 17, *Pteroc. Valentini* 17, *Pteroc. Skottsbergii* 17

## Q

- Quercus tomentella* 5

## R
